

Analytical individual with a background in molecular genetics and wildlife biology and practical experience in ecological field methods. Strong interest in invertebrates and freshwater systems, with a focus on applying analytical and data skills to ecological and conservation work.

EDUCATION

Edinburgh Napier University
MSc Wildlife Biology & Conservation (2016-2018)
DipHE - Data Science (2021-2024)

University of Dundee
BSc (Hons) - Molecular Genetics (2:2) (2010-2014)

FIELD EXPERIENCE

Freshwater invertebrate sampling (MSc research)

- Collected and analysed samples as part of MSc research investigating environmental influences on riverfly growth rates in freshwater systems

Sweep netting (BSc fieldwork)

- Collected terrestrial invertebrates from vegetation, including Hymenoptera specimens for study

Light trapping

- Used light-based trapping methods to observe and collect nocturnal Lepidoptera

Pitfall trapping

- Sampled ground-dwelling invertebrates using standard ecological trapping methods

Bush beating

- Used beating trays to collect invertebrates from shrubs and vegetation

TECHNICAL & ANALYTICAL SKILLS

Analyst Developer - University of Edinburgh (current)

- Working with complex data systems, reporting processes and stakeholder requirements in a large institutional environment
 - Data analysis and reporting (SQL, ETL, structured data work)
 - JavaScript and Vue.js development
 - Database management and query writing
 - Stakeholder engagement and requirements gathering
 - Documentation and process mapping
 - Version control (Git, GitHub, GitLab)
 - Python for data handling and analysis (pandas)
-

ECOLOGICAL INTERESTS

Invertebrates and plant–insect interactions. Ongoing independent observation, identification, recording, microscopy and specimen examination using taxonomic identification keys

WHAT I'M LOOKING FOR

Particularly interested in opportunities involving field recording, invertebrate identification, and ecological and conservation work, especially in field-based and data-supported contexts. Available for regular or occasional volunteering opportunities.
